

FCC Commissioners  
The Federal Communications Commission RE: Docket 04-435  
445 12th Street, SW  
Washington, DC 20554

Dear FCC Commissioners ,

To:

FCC Commissioners

cc: Senators Martinez and Nelson

Subject: No Cell Phones on Planes

Dear FCC Commissioners:

I am writing to voice my concerns about the FCC's proposal to relax the restrictions on the use of cell phones on airplanes in flight.

There is no hard evidence that cell phone use doesn't interfere with navigational instruments. The introduction of cell phone use in the cabin will not only increase tension among passengers, it will compromise flight attendants' ability to maintain order in an emergency. Cell phone use could also enable terrorists to coordinate a plan of action more effectively.

Just imagine 200 passengers or even more, going on a ten hrs flight to Europe and talking on the cell phone at one time or another.

It is hard to cope with screaming children during a long overseas flight or even just to California which is 5 hrs. There are going to be riots on the flights. Road rages become flight rages.

It is incredible that the cell phone companies see only the dollar amount (greed is good?) and can care less about the health of passengers (raw nerves, anger and anxiety can cause heart attacks or strokes). When is a passenger going to find some rest on these long flights?

Please leave the current rules in effect.

Sincerely,

Sigrid Morris 4813 Eaglesham Dr Orlando, FL 32826

Sincerely,

Sigrid Morris
